Please follow these steps:

- 1 Fill in the form directly on your PC
- 2 Print it
- 3 Send it in attached to your instruments

Tip. Use the TAB-key to jump between the fields

Please write down the name of the instruments and probes on line 1-4. See separate pricelist.

1. **Calibration at arrival.** If needed **adjustment and thereafter calibration** - Extra charge.

2. **Calibration.** If needed **adjustment** is done before.

3. **Calibration** (no adjustment).

4. **Repair.** Please describe what is broken as accurately as possible.

Definitions:

Calibration is to compare the instrument to a known value, the divergence is presented on a certificate.
Adjustment is to change the reading of the instrument to show as accurately as possible.

Send instruments and sensors to:
